<b>Subject:</b> NMED information.		
<p><u>Summary:</u> I spoke with Mr. Davis about NMED Event No. 040673 concerning the return of a sealed source from a waste facility to NRD's possession. Mr. Davis stated someone from the Region I office had seen him about the event, that the source was in their possession, and that he would get back to me with more information.</p> <p>10/19/2004 10:00 Mr. Davis left a voice-mail message for me with additional information. James Schmidt of Region I conducted an inspection into the event from May 25, 2004, to August 3, 2004 and provided the findings in Report No. 99990001/2004004 dated August 10, 2004. NRD made the static eliminator and sealed source. The device was then distributed the device to Herbert Products, Inc. who distributed it to Alford Industries at 390 New Albany Road, Moorestown, NJ. The facility underwent a number of changes in ownership prior to the device being sent to the waste processing facility. The device is a Model A-2003 with 4.875 millicuries of Americium-241 with a serial number of SA-2901.</p>
